

Emergency Response Teams

The Incident Command System (ICS) is a management standard that focuses on key functional responsibilities for incident response regardless of incident size. In smaller agencies individuals may need to bear multiple responsibilities. Smaller agencies also frequently look to partner agencies to help fulfill its emergency response roster demands. Identify the personnel expected to serve on your Emergency Response Team:

Transit Emergency Response Team Roster

Functional Responsibility	Regular Job Title	Name
Team Leader		
Deputy Team Leader/ Alternate Team Lead		
Alt. Deputy Team Leader		
Safety Officer		
Alt. Safety Officer		
Information Officer/ Interagency Liaison		
Deputy Info Officer/ Alt. Info Lead		
Alternate Deputy Information Officer		
Operations Management		
Alternate Operations Management		
Incident Planning		
Alternate Planner		
Incident Logistics		
Alternate Logistics		
Incident Finance/Admin.		
Alt. Finance/Admin.
